Ibn El-Nafees discovered the blood circulates
the heart and the lungs. He called the blood which comes from the heart to the
lungs blood. When it the lungs, it
receives oxygen it is called oxygenated blood.

Part Two :

Comprehension (27 marks)

Read the following passage and answer the questions below :

Martin Luther King was born in Atlanta Georgia in 1929. From an early age, he was aware that black people were not treated as equal citizens in America.

Most blacks lived in poverty in the richest nation on earth. **They** earned half of the white people's wages and many could not vote. In many places the blacks were separated from the whites, there were shops and restaurants that only white people could use. Even on the buses, black people had to stay in the back of the bus.

Martin Luther King **believed** that these things were not right. He believed that the only way to make society more equal was by peaceful protest. For example, he organized a bus boycott which meant that the black people refused to use buses until they were allowed to sit in any part of the bus. Many similar protests were organized by Martin Luther King. He never used violence but always looked for a peaceful way of protesting. However, some people who did not like what he was doing, used violence against him; his home was bombed, he was stabbed and his family was threatened. He still believed, thought, violence and hatred could only be overcome by love and forgiveness. In 1964 he was awarded Nobel Peace Prize, and in 1965 all blacks were allowed to vote.

In 1968 a white man called James Earl Ray shot Martin Luther King dead. Today Americans remember his peaceful fight for freedom and justice by having a public holiday every year called "Martin Luther King Day".

(A) Give short answers : (10 marks)

1- When was Martin Luther King born ?

He was born

Part Three :

Summary :

(10 marks)

Read the following text carefully, and then in your own words, as far as possible, write a summary. Your answer should be a connected piece of writing.

Many birds migrate so as to avoid the cold weather. In this way they are able to live in a warmer countries all the year round. Moreover, migration helps them to have a continuous supply of food. In some areas in the North and South Poles the water is frozen and snow covers everything. Therefore, food becomes scarce and birds migrate. Birds usually prefer to travel at night. They use the stars and the moon to help them find their route.

In not more than (22) words summarize why do birds migrate ?
